PCS Door Access PHS/JH - Addendum 5/8/2017

1) New doors that will be installed at a later date, provide controllers but not door hardware.
    a) PHS Door 3A qty 1 Single Door to be cut into brick wall,
    b) PHS Office qty 2 Single Door each hall to be added later,
    c) PJHS Office Near Door 2 Qty 2 Single Door each hall to be added later.
2) "A proper accredited lock-smith will install/modify all door hardware" change to "A proper accredited lock-smith or door installation vendor will install/modify all door hardware"
3) RTE means interior card reader.
4) Interior signage will be by the school district.
5) If required to provide the necessary number (6) total with existing and new license than provide a total of 2 tokens.
6) District will provide 120v access in technology closets as needed.
7) P225XSF Reader may be substituted where appropriate over P325XSF readers.
8) Quick disconnects allowed and required in locations with removable mullions.
9) Ability for secretaries at both PJHS [door 2] and PHS [door 3] to manually allow access in from their work areas. Two locations at PJHS and one location at PJHS.
10) Our current Kantech Version is 6.0.4.
