To The Parents Of _____,

Our records indicate that your child is currently using the Piqua City Schools 'remote learning' option. The end of the first semester is nearing soon and remote learners will have the option at that time to choose the 'in person' learning option beginning Monday, January 18, 2021. In order for us to adjust our classroom rosters and routines for each building in time to welcome students successfully back into our classrooms, we will need to begin the process now to enroll students that want to make this transition back into the school setting. To help with this process, we are asking parents to complete this brief survey prior to 4:00 P.M. Friday, December 11, 2020.

Survey Link: <https://forms.gle/kN7va8m1bvMP37kGA>

It is our goal to offer in-person learning opportunities as much as we can. We believe this is the best opportunity for students to master grade level content and apply their knowledge. We also understand that parent work schedules and a lack of child care options make it difficult for many students to stay home. In order for us to provide a safe environment, we will continue to practice safety measures such as social distancing, wearing masks, increased cleaning and sanitization, and washing hands. All sports and extracurricular activities will continue to be offered to in-person **and** remote learners with CDC and local health department guidelines in place as well.

We know this can be a difficult decision for some parents to make. If you should have any questions that we can assist with to help you with your decision, please do not hesitate to contact us so we can assist.

Sincerely,

Dwayne A. Thompson

Dwayne A. Thompson
Superintendent,
Piqua City Schools

District Contact Information

Building Principals:

PHS: Mr. Rob Messick, messickr@piqua.org, 937-773-6314 ext. 1011
