The Community Construction Progress Tour for the Piqua City School District New Washington Elementary School will be held on Sunday, September 28th from 2:00 p.m. – 4:00 p.m. at the school construction site.

While the new school is not scheduled to open until early 2015, this event provides our community the opportunity to see the work in progress. Because this is a live construction site, tours are only open to adults and students age 10 and over. The construction site is not currently handicap accessible and parking is not available at the site. Participants are asked to utilize street parking.

This event is sponsored by the Junior Builders Club/Gilbane Building Company and the Piqua City School District. The Junior Builders Club, students representing grades 2-11 from each of our buildings, has been meeting monthly throughout the building project. These students will lead the tours and share information about the buildings with community members throughout the tour.
